Check in: 18 Oct 2023 Check out: 21 Oct 2023

Day 01 18 Oct (Wed)

Kuala Lumpur - Haikou

(X/X/D)

Meet at **KLIA terminal ONE** at 0600hrs, check in at **Malindo counter** for flight depart to Haikou by **OD614 ETD: 0825hrs**. Upon arrival, meet and greet by our local representative, after which proceed to **Mission Hill Resort – Haikou** (land transfer about 20mins), on the way all golfers will be given a set of egg sandwich for lunch, on arrival at Mission Hill Resort

enjoy a round of golf game at Sand belt Trails Course Number 2 with par 72, with 105 bunkers and total length will be 7221 yards from black tee. After golf, check into the resort and go back to your room to have shower, after which meet at lobby and proceed for Welcome Seafood dinner (Dinner hosted by our agent) after dinner transfer back to hotel rest and relax.

Sandbelt Trails is patterned after the exceptionally strong courses of the Australian Sandbelt. Courses such as Royal Melbourne, Kingston Heath,

and the Metropolitan Club serve as inspiration for a course that features large bunkers dominated by high sand flashes and crisp, thick lips that rise above fairway and green surfaces. While some of these bunkers are formal, surrounded by turf, many transition to native jungle vegetation without a clean edge creating a much more natural landscape. Large greens feature plenty of movement and square tees add to the distinct look. The predominant tree is eucalyptus in keeping with the Australian inspirations. The gently rolling sometimes flattish terrain has been capped with plenty of width to provide vast playing surface and alternative angles of attack from its sweeping fairways. Like the other courses, it sprawls over a huge expanse of land yet features intimate green to tee connections promoting an easily walkable experience.

Day 02 19 Oct (Thursday)

Mission Hill – Lava Course (Championship Course) (B/X/D)

Breakfast at Resort, after which enjoy 1 round of 18holes golf game **At No 5 course - Lava Fields Course** (Inclusive of green, caddy and twin share Buggy), after golf, lunch (at own account) at club house or outside of Mission Hill Resort, after lunch visit **Mission Hills H·Brothers Feng Xiaogang Film Commune**, follow by dinner in town (Local Coconut steamboat with Chicken soup), after dinner return back to resort, rest and relax for the day.

The Lava Fields Course - While similar in many respects to the Tournament Course with its irregular lines of turf and wild bunkering, Lava Fields presents far less tree cover. There is a feel of expanse that creates a big look and the black rock and sand dominate the landscape like no other course in the world. At 7400 yards, it too is capable of hosting significant events.

Day 03 20 Oct (Friday)

Mission Hill – Black Stone (Championship Course) (B/X/D)

Breakfast at Resort, after which enjoy 1 round of 18holes golf game **At No 1 Course - Blackstone Course** (Inclusive of green, caddy and twin share Buggy), after golf, lunch (at own account) at club house or outside of Mission Hill Resort, after lunch proceed to Haikou town **Haikou City Tour**. Visit, **Leiqiong UNESCO Global Geopark Haikou City**, and last minute shopping in the local shopping mall . After shopping proceed for a farewell local dinner, after dinner returning back to Resort rest and relax,

Blackstone Course _ – voted best championship course in Asia; venue for the annual World Ladies Championship and the biennial World Celebrity Pro-Am. The crown jewel is the Blackstone Course, a spectacular 350 acre core golf course that weaves through a striking landscape of mature trees, thick jungle vegetation, and expansive lakes and wetlands. The dominating site characteristic is the bed of lava rock which was capped with material located 25 miles away. The naturally rolling terrain sees dramatic elevation change and great care was taken to find as many natural holes as possible to avoid cutting the rock and to preserve the magnificent Lychee trees. The lava rock base has been incorporated as an integral element of the design by weaving irregular lines of turf and rock, eliminating the typical hard-line edge of most courses. Adding to the look are wild, irregular bunker edges and transitional sand edges that effortlessly work into native lava rock.

Fairways sweep across the landscape conforming to the natural terrain with an emphasis on surface drainage rather than contained low drain inlets. The result is a magical blanket of turf with soft irregular edges and a lack of hard lines as there is only fairway cut (no rough, even at bunker faces). The lava bed is incorporated into forced carries creating dramatic contrast and the lava rock walls and village ruins created years ago remain as a testament to the site's past.

The course begins in the more heavily wooded portion of the property with a wide variety of hole lengths and natural amphitheatre green settings. The final holes play in and out of a hub of raised terrain that allows spectacular views of the closing holes with little need to move. Easy green to tee relationships and easy terrain render the course very walkable. Difficult, long (at over 7,800 yards) and with risk/reward

opportunity at the final holes, this course should prove to be one of the premier tournament courses in the world today. Great effort was made to provide not only a great tournament golf course but extensive planning and construction has created support facilities capable of hosting big events with the greatest of ease.

Day 04 21 Oct (Sat)

Haikou – Kuala Lumpur (B/X/X)

Breakfast at the hotel, after which check out at 1100hrs and proceed to Haikou Airport for flight departure back to Kuala Lumpur by Malindo OD 615. ETD: 1340 hrs Home sweet Home.
